Projects

• Website Game Chekers

I created a checkerboard game in which player play against minimax algorithm bot.

Created using : Javascript, HTML, CSS.

• Website "Our Cinema"

I created a cinema ticket booking website, and users can choose - seats and the website displays tickets in the form of qrcode.

Created using : HTML, CSS, JQuery, Bootstrap, PHP, MySQL.

• Android Application "KeRing" (Kelas Daring)

Google classroom clone application, can create classes, and as a teacher can send announcements.

Created using : Kotlin, Firebase Firestore, Firebase Cloud Messaging.

• IOS Application "Akihabara Japanese Food"

Make food and beverage orders, and the application shows - the order receipt.

Created using : Swift.

Summary

Hello! My name is Iverson Auldrych Given Krysthio you can call me Iverson, and I enjoy creating things that live on the internet. My interest in web development started back in first high school when I decided to try create my own website and it turns out it taught me a lot about web development.
